Coding Class for Boys and Girls

This year, AFF has dedicated itself to empowering the next generation of innovators and leaders through its coding classes for boys and girls. Our classes have not only equipped our students with coding skills but also instilled in them a sense of creativity, problem-solving, and teamwork. 20 students were selected to attend this programs and they have developed a strong foundation in coding, preparing them for future careers in technology.

We extend our deepest gratitude to Duke Energy for donating 10 used laptops, our loyal volunteers, and community partners who have made our work possible. Your unwavering support has been instrumental in our success, and we are committed to continuing our mission with your help.

Mission Trip to Togo (April 10 - 18, 2024)

Our mission was twofold: to empower communities in Africa by constructing water wells and Latrines, addressing a critical need for access to clean water, health, and education, and to share the Gospel, spreading the love of Christ and the hope of eternal life. We partnered with local churches and organizations to ensure the sustainability of our efforts and the spiritual growth of those we served.

The water well will provide access to clean water for over 13,000 individuals. We shared the Gospel and discipleship training with hundreds of community members, leading to new believers and strengthening the faith of those already following Christ. We extend our deepest gratitude to our supporters, volunteers, and partners who made this mission possible. Your generosity, prayers, and encouragement were instrumental in our success.
